PROFILE SUMMARY

Results-driven **Software Engineer with 2+ years of experience** building scalable, secure and high-performance fintech and enterprise applications. Specialized in **Java Spring Boot microservices and modern frontend frameworks (React / Next.js)**.

Proven ability to design and deliver **end-to-end systems**, optimize performance, and integrate complex distributed architectures. Strong background in **secure development, API design, and real-time systems**, with experience working in agile, cross-functional teams.

WORK EXPERIENCE

Software Engineer | PayMedia Private Limited

Jan 2026 – Present

- Deliver **production-grade applications** using **Spring Boot (microservices)** and **Next.js** in a high-availability environment
- Design and implement **secure REST APIs**, improve system performance through **query optimization, caching strategies, and efficient API design**
- Enforce **secure coding practices** (authentication, encryption, data protection) aligned with financial compliance standards
- Contribute to **system architecture decisions**, focusing on scalability and maintainability
- Coordinate with cross-functional teams to **plan, track, and deliver features within timelines**
- Support and guide junior developers through **code reviews and technical discussions**
- Ensure timely delivery of **high-quality deliverables** aligned with business and technical requirements

Associate Software Engineer | PayMedia Private Limited

Jan 2025 – Jan 2026

- Developed **backend services with Spring Boot**, supporting core financial operations
- Built **Next.js frontend modules** with focus on usability and performance
- Integrated **external systems via REST APIs**, ensuring secure and reliable data exchange
- Resolved production issues and improved system stability through **debugging and monitoring**

Associate Software Engineer | TS Technologies

Aug 2024 – Jan 2025

- Built and maintained **REST APIs using Spring Boot** for enterprise-level applications
- Implemented **business logic and data processing pipelines**
- Developed **full-stack features using Next.js and backend services**

Trainee Associate Software Engineer | Ceyentra Technologies

Feb 2024 – Aug 2024

- Assisted in developing **backend services and REST APIs** for a cloud-based platform
- Supported **data handling, integration tasks, and debugging activities**
- Gained experience in **secure coding practices and agile workflows**

Demonstrator | Institute of Software Engineering (IJSE)

2023 – 2024

- Conducted **hands-on Java sessions** covering OOP and core programming concepts
- Mentored students in **problem-solving and debugging techniques**

TECHNICAL SKILLS

Languages: Java (Primary), JavaScript, TypeScript, Python

Frameworks & Libraries: Spring Boot, Spring Cloud (Gateway, Eureka), Spring Security, Spring Data JPA, Express.js, React.js, Next.js, TanStack Query, Redux, Flask, Scikit-learn, pandas, Tailwind CSS

Databases & ORMs: MySQL, PostgreSQL, MongoDB, Hibernate (JPA), Prisma ORM

Testing: JUnit 5, Mockito, Playwright

Messaging & Integration: Apache Kafka, MQTT

Cloud Platforms & DevOps: AWS, Docker, CI/CD (GitHub Actions)

Version Control: Git, GitHub, GitLab, Bitbucket

Operating Systems: Linux, Windows, macOS

Architecture & Concepts: Microservices Architecture, Micro Frontend Architecture, Event-Driven Systems, RESTful API Design, JWT Authentication, Role-Based Access Control (RBAC), Data Encryption (AES-256)

PROJECTS

Fintech & Banking Solutions

Developed and maintained Java Spring Boot REST APIs , Frontend applications and middleware services across multiple fintech projects enabling secure and efficient data exchange between backend systems and client interfaces.

Technologies : *Java , Spring Boot, NextJS*

BookReview Platform – Enterprise-Grade Spring Boot Application

Designed and implemented a distributed system using Spring Boot microservices with Spring Cloud Gateway for routing, JWT authentication, load balancing, and secure request handling.

Technologies: *Java 21, Spring Boot 3, Spring Cloud (Gateway, Eureka), MySQL, JWT, BCrypt.*

Digital Signage Solution (Associated with TS Technologies (Pvt) Ltd)

Built Spring Boot REST APIs for a real-time content delivery system, handling secure data exchange, content scheduling, and backend communication via MQTT integration

Technologies: *Java, Spring Boot, Mysql, MQTT, React.*

Queue Management Solution (Associated with TS Technologies (Pvt) Ltd)

Developed a Spring Boot REST API platform covering queue registration and real-time synchronization with retry logic and secure transaction flows

Technologies: *Java, Spring Boot, MySQL, REST APIs, MQTT, React.*

Smart Board Application (Associated with TS Technologies (Pvt) Ltd)

Built secure Spring Boot backend services with JWT authentication, REST API endpoints for device/user/content management, and reliable session handling in an educational environment

Technologies: *Java, Spring Framework (Boot, Data, Security), JWT, ReactJS, MySQL.*

Unicloud360 (Associated with Ceyentra Technologies)

Implemented Spring Boot REST APIs with JWT authentication for a student lifecycle management platform, ensuring data consistency across modules in a cloud-hosted Java environment.

Technologies: *Spring Framework (Boot, Data, Security), JWT, MySQL, Java 8, AWS.*

AI-Powered Antenatal Health Assistant (BSc Software Engineering Dissertation)

Developed a web-based AI-powered antenatal health assistant with a Random Forest risk prediction engine for real-time pregnancy risk classification. Implemented secure JWT authentication with role-based access for Mothers and Public Health Midwives, medical record management with AES-256 encrypted PostgreSQL storage, and interactive dashboards for health trend monitoring.

Technologies: *Next.js 15, Node.js, Express.js, Prisma ORM, PostgreSQL, Python, Flask, Scikit-learn, JWT, Tailwind CSS, Docker*

EDUCATION

BSc (Hons) Software Engineering – Second Class Upper Division
Cardiff Metropolitan University — 2025

Graduate Diploma in Software Engineering
Institute of Software Engineering (IJSE) – 2024

Diploma in Software Engineering
Developers Stack Academy – 2024

LICENSES & CERTIFICATIONS

Next.js: Build Dynamic, Fast & Scalable Web Applications | [Link](#)

Learning Spring 6 with Spring Boot 3 | [Link](#)

Java Threads | [Link](#)

Learning Java Collections | [Link](#)

Learning Spring with Spring Boot | [Link](#)
